

Public Workshop Series 3 Response Form

As we wrap up this final phase of the planning process, we are interested in how citizens, visitors, and property owners feel about the content of the Draft Bear Lake CMP document. To facilitate this, we have developed this Workshop Response Form so that you can tell us your views concerning the Draft CMP document, as well as any suggestions you have pertaining to the issues, goals, and recommendations contained in the plan. If you need more space, feel free to attach additional sheets to this form. If you need more time, please mail this response form to Christopher Sands, BIO-WEST, Inc. 1063 West 1400 North, Logan, Utah 84321. **All comments must be received by close of business on Monday, March 23, 2009.** Thanks again for your participation!

BEAR LAKE COMPREHENSIVE MANAGEMENT PLAN PROJECT

Public Workshop #3

February 24, 2009: Garden City Offices Conference Building
February 25, 2009: Quality Inn Wasatch Room
6:00 to 8:00 p.m.

Welcome

Welcome to the Bear Lake Comprehensive Management Plan (CMP) Project public workshop. We are glad you could attend and look forward to receiving your input on this important effort. This is the third in a series of three public workshops that will be held during the planning process to establish criteria and direction for management of Utah State sovereign lands at Bear Lake. The purpose of the CMP is to identify issues and concerns relative to the sovereign lands and resources at Bear Lake and propose management alternatives to address those concerns.

Each public workshop is designed to facilitate your input, which will guide the development of the CMP document. At this workshop we will make an approximately 20-minute-long presentation to familiarize you with the Draft CMP document and study area. In addition, you will find a series of informational maps around the room identifying study area resources and other existing conditions. The primary purpose of this workshop is to receive your input on the Draft CMP document. After the presentation, you will be given the opportunity to ask questions and provide us with your suggestions.

Please listen carefully to the presentation and take the time to familiarize yourself with the information included in this handout. Most importantly, let us know what questions or comments you have on the Draft CMP document by filling out the Workshop Response Form included in this handout or by going to the State's website for the project. The deadline for comments on the Draft CMP document is March 23, 2009. If you have any questions, please do not hesitate to ask members of the Project

Team who are here to listen to and answer your questions. Thanks again for participating!
